

CDB SEMINAR

New Horizon in C. elegans Biology

Date:	Friday, July 2
Time:	14:30 P.M. ~ 17:30 P.M.
Place:	1F Auditorium of Building C, CDB

14:30-15:30 “Telomere binding proteins and their functions
in the nematode *C. elegans*”

Junho Lee

<Department of Biology, Yonsei University >

15:30-16:30 “Non - canonical Wnt signaling pathways
control cell polarity in *C. elegans*”

Michael Herman

<Division of Biology, Kansas State University>

16:30-17:30 “Genetic analysis of epidermal
morphogenesis in *C. elegans*”

Andrew Chisholm

<Department of Molecular, Cell, and Developmental Biology,
University of California >

18:00-

Party

If you would like to attend the party after the seminar,
Please contact Masayuki Uchida (uchida @cdb.riken.jp).

-Host- Hitoshi Sawa Cell Fate Decision , CDB E-mail: sawa@cdb.riken.go.jp Tel: 078-306-3199
RIKEN Center for developmental Biology <http://www.cdb.riken.go.jp/>
